Education

KIET Group of Institutions — Ghaziabad, Delhi NCR
B.Tech in Computer Science and Engineering, SGPA: 8.1 — *August 2023 – Present*

Academic Global School — Gorakhpur, Uttar Pradesh
Class 11 & 12, CBSE Board, Percentage: 93.8% — *March 2020 – March 2022*

Technical Skills

Languages: JavaScript, TypeScript, C, C++, SQL, Python
Databases: MongoDB, MySQL, Firebase, PostgreSQL
Frameworks & Libraries: React.js, TanStack Start, Next.js, Tailwind CSS, Node.js, Express.js, Django, DRF
Tools & Technologies: Docker, Git, GitHub, Nginx, Linux, Postman, Redux

Experience

EduVerse | SDE Intern — September 2024 – Present

- Engineered **10+ production modules** using **TanStack Start**, **React**, and **DRF**, delivering data tables, form-heavy workflows, and responsive layouts across the platform.
- Architected **infinite-scroll pagination** for dropdowns and data tables, cutting unnecessary API payloads by **40%** and reducing average page load time by **1.2 seconds**.
- Integrated **AWS S3** with pre-signed URLs for secure media storage, slashing image load times by **30%** and improving reliability for **500+ daily uploads**.
- Collaborated a **5-member cross-functional team** to ship production-ready features across **3 major release cycles**, maintaining zero critical regressions.

TEAM ERP | Full Stack Developer Intern — June 2024 – October 2024

- Contributed to **TEAM ERP**, an in-house college management system serving **8,000+ users**, by building and maintaining **8+ core modules**.
- Spearheaded full-stack features using **Django, React, JavaScript, HTML/CSS, and SQL**, streamlining **3+ operational workflows** and reducing manual data-entry steps by **35%**.
- Partnered with a **10+ member development team** to optimize data flow, ship new functionalities, and improve overall system UX for **8,000+ active users**.
- Executed the complete **SDLC** from SRS documentation and UI design through testing, deployment on Nginx, and post-launch maintenance.

Projects

Certifier | Bulk Certificate Generator — GitHub | Live

- Built a high-throughput certificate platform that processes **Excel/CSV datasets** and generates **1,000+ personalized certificates within seconds** using customizable templates.
- Designed a robust **file management system** with folder CRUD, soft-deletion, and **trash recovery**, reducing file-handling errors by **60%** in institutional use.
- Crafted a responsive **React.js + Redux** frontend and **Django REST API** backend using **Pillow** for server-side rendering, cutting certificate generation time by **80%** vs. manual methods.

KIET Website | Institutional Web Portal — GitHub | Live

- Engineered a modern, responsive **Next.js** portal for KIET with restructured information architecture, boosting average session duration by **25%**.
- Refactored core application logic using advanced routing techniques, leading to a **40%** increase in Lighthouse performance scores, enhancing SEO and sustaining **3,500+ daily visitors** with high availability.

StayEasy | Airbnb-Inspired Home Sharing Platform — GitHub | Live

- Architected a scalable full-stack booking platform using **Node.js, Express.js, MongoDB, and EJS**, supporting property listing, discovery, and review management for **100+ listings**.
- Secured user sessions with **Passport.js** and wired **Mapbox** geolocation and **Cloudinary** CDN, reducing map load time by **35%** and media delivery latency by **40%**.

Achievements

- Qualified at the regional level in the **Google Solution Challenge** by building a project aligned with the UN Sustainable Development Goals.
- Secured **6th rank** among 500+ contributors in **IWOC 2024**, successfully merging **20 pull requests** across multiple open-source repositories.
- Solved **240+ coding problems** across competitive platforms and earned a **1400+ rating (2)** on CodeChef. Link
